APPLICATION

If a plat has been previously approved and recorded, technical or minor changes to the plat may be approved through a lot line adjustment pursuant to Monroe County Code Section 110-110, or if the changes meet the requirements of Section 177.141, Florida Statutes. *All other changes shall be considered a replat.*

The lot line adjustment shall be consistent with the purposes, goals and objectives of the Comprehensive Plan, the Land Development Code, applicable provisions of state law, and the provisions governing the development of land set forth in Chapter 130 in the Monroe County Code.

Lands within the IS, IS-M, IS-V, IS-D, URM, URM-L and CFV districts shall not be platted, replatted or otherwise reconfigured in any manner that would allow the number of proposed lots or units to exceed the number of lots or parcels that lawfully existed as of September 15, 1986.

The resulting lots configured in the lot line adjustment process must meet the minimum requirements for a building site pursuant to the Land Development Code and Comprehensive Plan. All resulting lots will conform to the site development standards of the applicable zoning district.

The resulting lots shall not create nor enlarge, expand or extend a nonconforming structure.

A lot line adjustment approval shall not result in the creation of additional lots or building sites, nor result in the encroachment into any public easement, right-of-way, or other required areas.

Parcels that have frontage on a county or state road must continue to have such frontage and access after the adjustment. Each resulting lot must have legal access, utilities (if available), water, sewer and storm drainage.

Applicant(s) shall submit a written consent from all property owners. All affected property owners shall be applicants for the lot line adjustment.
