

**MONROE COUNTY**  
FLORIDA

# Harry Harris Resilient Redesign

## Overview of Project Zones:

1. Beach/swimming area
2. Picnic Areas and Playground
3. Access Roads and Public Parking, Restroom Building
4. Boat Ramp, Timber Pier, and Seawall
5. Wilkinson Point Circle
6. Northern Shoreline and Walking Trails, Picnic Pavilions
7. Baseball Fields and Related Structures
8. Basketball Courts and Open Space

## Vulnerabilities in the Project Zones:

1. High vulnerability to wave energy, beach erosion
2. Protect upland areas with adaptation strategies
3. Vulnerability to storm events
4. Vulnerability to shoreline impacts and wave energy
5. Existing pavement is degrading
6. Vulnerability to storm events
7. & 8. Minimize damage to facilities from storm events
